

## **Unity**

'Unity' is a word that includes about working and making peace.

'Unity' means we should work together and support when someone is going through hard times, as this is called 'United we stand'. Through all the hard times to someone who is solo, they will have a rough time to move on, it also means 'Divided we fall'. This means that unity is everyone's strength and divisions is everyone's weakness.

Even though everyone is different, it does not change the fact that we should not be together. We are different, we are not the same, we always have been and always will be the same, but different should not divide us, but unify us because different is an asset.

'Unity' is also a word that everyone should know and learn to be together as one, making peace to the world.
